

Eldan Multi Chopper

The Multi Chopper is designed for effective pre-chopping and size reduction of various materials.

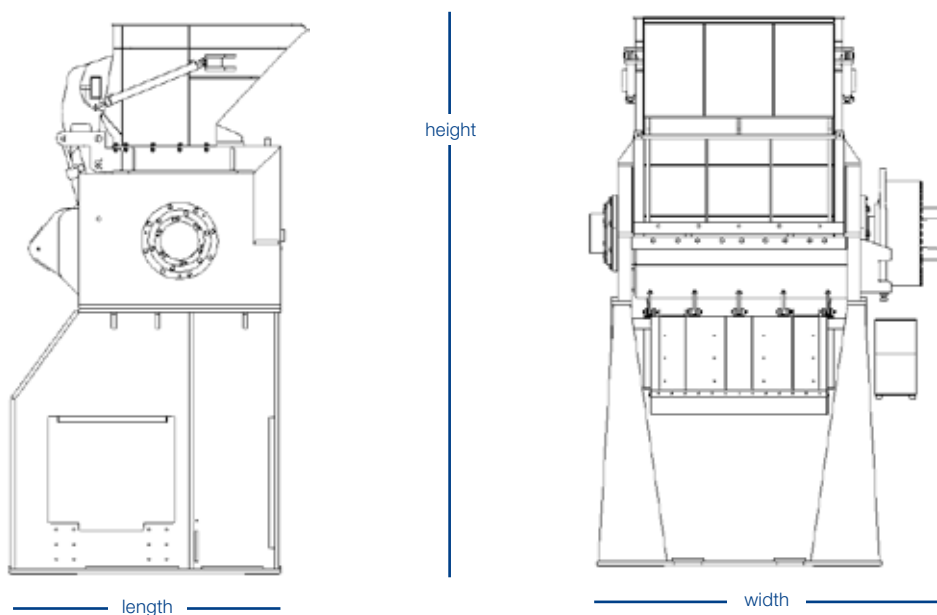

- Aluminium (e.g. used beverage cans)
- Cables
- Electronic and electrical waste (i.e. WEEE)
- Municipal solid waste (i.e. MSW)
- Etc

The Multi Chopper with screen is the optimum solution for "one step" preparation of your material for final granulation.

Features

- Low speed, high torque rotor enabling processing of tough material
- Powered directly by Hägglund hydraulic motor and power unit enabling automatic reverse for overload protection thus minimizing knife damages
- Able to start up when fully loaded with material – reducing downtime after shutdown
- Adjustable knife clearance optimizing the cutting function
- Special tool-steel knives can be reground multiple times on a “flat-bed” grinder to ensure long life and low operating costs
- The machine is designed for quick and easy change of knives
- Knives available in different steel qualities providing the optimum solution for processing of your specific material
- Screens with different hole sizes available to make your production flexible
- Exchangeable wear parts give you a virtually indestructible machine

| Technical Specification | MC1348/90 | MC1348/160 |
|-------------------------|-----------------------------|------------------------------|
| Electrical motor | 90 kW | 160 kW |
| Hägglund motor | CB280 | CB400 |
| Rotor | 1300mm/0-21 rpm | 1300mm/0-29 rpm |
| Knives | 48 flying/4 static | 48 flying/4 static |
| Capacity/hour * | Up to 3 ton/production hour | Up to 5 ton/ production hour |
| Weight | 16000 kg | 16000 kg |
| Length x width x height | 2200 x 2700 x 4000 mm | 2200 x 2700 x 4000 mm |

* Depending on type of input material, method of feeding and screen size
Standard voltage: 3 ph, 400, 50 Hz – for other voltages please contact our sales department
