

ELDAN Super Choppers - II

Up to 40000 kg/h

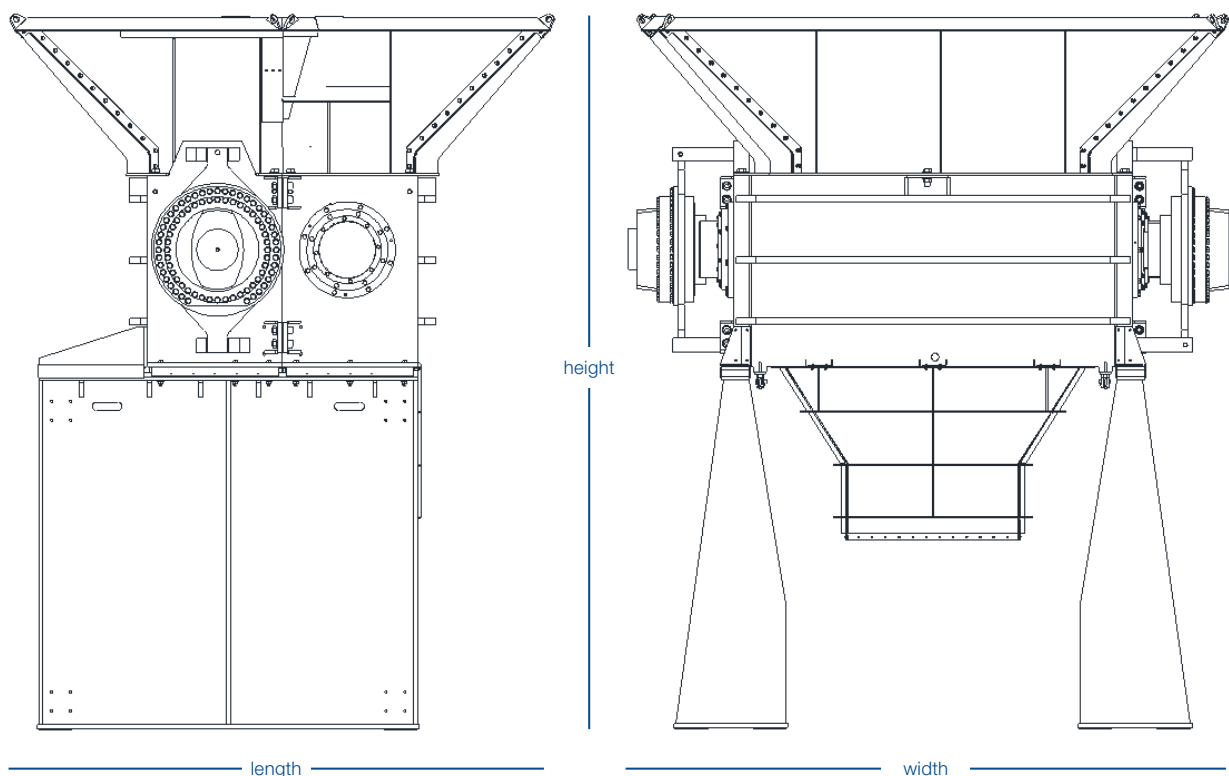

SUPER CHOPPERS - II

The ELDAN Super Choppers are heavy duty pre-choppers designed as first step in any recycling process. The Super Choppers can be used for pre-chopping of most materials like for instance tyres (without prior debanding), all types of aluminium scrap, cables, electronic and electrical waste (i.e. WEEE), refrigerators, municipal solid waste (i.e. MSW), wind turbine wings (cut-off), plastics and industrial waste.

- Low speed, high torque enabling processing of tough material
- Powered directly by Häggglund/Bosch-Rexroth hydraulic motor and power unit enabling automatic reverse for overload protection thus minimizing knife damages
- Starts up when fully loaded with material – reducing downtime after shutdown
- Adjustable knife clearance optimizing the cutting function
- The knives can be reground multiple times on a “flat-bed” grinder ensuring long life and low operation costs
- The machine is designed for quick and easy change of knives
- Unique rotor manufactured and designed for minimum wear
- Hydraulic operated upper part for easy access to the rotor

Super Choppers - II

Technical specifications	SC1412-II	SC2118-II	Units (EN / US)
Electrical motor *	2 x 160	2 x 250	kW
Hägglund hydraulic motor *	2 x CB400	2 x CB560	pcs
Rotor length	1400 / 55	2100 / 82	mm / in
Rotor speed	0-28 (x2)	0-21 (x2)	rpm
Knives - flying	12 (x2)	18 (x2)	pcs
Knives - static	7 (x2)	10 (x2)	pcs
Capacity **	Up to 30000 / 66000	Up to 40000 / 88000	kg/lbs per production hour
Weight (approx.)	28000 / 62000	42000 / 92000	kg / lbs
Length	4600 / 181	5500 / 216	mm / in
Width	5100 / 200	5900 / 232	mm / in
Height	4900 / 192	5300 / 208	mm / in

Standard voltage: 3 ph, 400 V, 50 Hz - for other voltages please contact our sales department

* Other motor options available on request

** Depending on type of input material and method of feeding
